CRIMINAL.

THE following revised Rule cancelling Rule 12 at page 113 of the Criminal Rules and Orders, and amending a portion of Rule 13 at pages 113 and 114 *ibid* which has been framed by the High Court of Judicature at Fort William in Bengal, under 24 and 25 Victoria, Chapter 104, section 15, having been approved and sanctioned by His Excellency the Governor-General in Council, is published for general information.

By order of the High Court,
C. M. W. BRETT,
Registrar.

PRESENT RULES.

12. [Chapter XXII, Code of Criminal Procedure. Record in Summary trials. C. O. No. 3 of 8th July 1876]—(a). A Magistrate trying an offence summarily, and passing a sentence from which an appeal lies, should not make the record required by section 264 of the Code of Criminal Procedure as an entry in the register prescribed by section 263, and then on the Appellate Court calling for the record of the trial, cut out and send up the portion of the register containing this entry. The practice of mutilating official registers is open to the gravest objection and is strictly prohibited; there is no warrant for it in the law.

(b). Section 263 of the Code of Criminal Procedure directs that a register shall be kept for a certain purpose, namely, for the purpose of entering such particulars as are specified in the section, in cases where no appeal lies. The provisions of this section do not apply to any other cases.

(c). The judgment required to be drawn up in appealable cases under section 264 is to contain the particulars mentioned in section 263 and something more, namely, the substance of the evidence on which the conviction was had. But it is not to be entered in the Register of non-appealable cases, and is evidently intended to be in a separate form, so that, when necessary, it may be submitted to the Court of Appeal.

13. [Chapter XXII, Code of Criminal Procedure. Inspection of Registers of Summary trials. C. O. No. 1 of 11th January 1888.]—District Magistrates should satisfy themselves from time to time that the law regarding summary trials is properly observed, and especially that Magistrates do not exceed their jurisdiction, a duty which may most conveniently be performed by an occasional and not infrequent examination of the registers of summary trials.

REVISED RULES.

Cancel Rule 12, Chapter VI (at page 113), Rules and Orders, Criminal. In Rule 13, Chapter VI (at page 114), Rules and Orders, Criminal, for *Registers* substitute *Records*.

BOARD OF REVENUE, L. P., Calcutta, the 28th August 1888.

No. 1127 B.

NOTIFICATION.

Dated Calcutta, the 30th August 1888.

THE following rules have been prescribed by the Board of Revenue, Lower Provinces, under section 164 of the Sea Customs Act, VIII of 1878, to carry out the provisions of Chapter 15 of the Act in their application to vessels sailing under a General Pass, and are published for general information in accordance with the provisions of section 204 of the Act, in supersession of the Notification contained in pages 688—694, Part I, of the *Calcutta Gazette* of the 9th August 1882:—

GENERAL.

1. In these rules the word “agent” shall include masters and owners.

The words “customs port” shall include any foreign ports regarding which it has been notified, under section 13 of the Sea Customs Act VIII of 1878, that all goods imported from or exported to them shall be treated as goods imported from or exported to customs ports.

The words “foreign port” shall include all foreign ports, whether on the continent of India or not, except those regarding which a notification has been issued as above.

The words “dutiable cargo” or “dutiable goods” shall be held to mean—

- (a) All goods shipped from foreign ports for customs ports whether transhipped at any customs port or not;
- (b) All goods specified in schedules 2 and 3 of the Tariff Act XI of 1882 whether shipped from or to foreign ports or customs ports;
- (c) All goods exported under claim for drawback or under bond for duty of customs or excise;
- (d) All goods the importation or exportation of which is prohibited or restricted under section 18 of the Customs Act, or any other law for the time being in force.

The words “free cargo” or “free goods” shall be held to mean all goods which do not fall within the above definition of dutiable.

2. A general pass in the form prescribed (Appendix A) shall be issued for each steamer under the signature of the Collector of Customs at Calcutta.

It shall be terminable on the 31st of July in each year, and shall be renewable by endorsement on application to the Collector of Customs. It shall be stated on the face of every general pass whether it is valid,

- (a) For certain specified ports only;
- (b) For all ports throughout certain presidencies; or
- (c) For all customs ports throughout India.

The pass shall remain in charge of the commander or other responsible officer of the vessel for which it is granted. It shall be kept posted up in a conspicuous place on board, and shall be shown to any customs officer on demand.

A copy of these rules shall be furnished with each Pass for the use of the ship to which it relates.

The agents or owners may choose at their option at which presidency the pass shall be taken out.

3. By applying for a general pass the agents of a vessel bind themselves, should a pass be granted, to be responsible:—

That no goods shall be carried by her in contravention of any law for the time being in force;

That all provisions of the Customs Act and of these and all other rules legally promulgated in accordance with the said Act, by the authorities of this or any other presidency in which the pass is in force, shall be duly observed;

That all port and light dues shall be paid and all duties short levied or refunds or drawbacks erroneously disbursed in consequence of errors or omissions in the cargo books, manifests, or other documents they are required to keep or put in, shall be made good on demand; and further,

That they shall deposit with the Collector of Customs a sum in cash or Government promissory notes, amounting to Rs. 500 for each vessel, but not more than Rs. 3,000 for any one company or line, and shall give him a general authority to recover from the said deposit all sums adjudged to be due from them whether as dues, duties, recoveries, fees or penalties, in respect of the vessel for which the pass is granted, or of any other vessel or vessels belonging to the same owners and also sailing under a general pass.

Nothing in this condition, however, shall be held to prejudice their right to appeal as provided by section 188 of the Sea Customs Act, VIII of 1878, in any case in which they may consider themselves aggrieved by the Collector's decision.

4. A cargo book in the form B annexed should be kept on board every steamer sailing under a general pass. The said cargo book shall be kept in accordance with the requirements of section 165 of the Sea Customs Act, VIII of 1878, and shall further show separately the dutiable and free cargo received at each port for each port, whether customs or foreign. Cargo received for transhipment shall be shown as for the port at which transhipment is to take place, but the port of ultimate destination shall also be given.

The keeping of the said cargo book shall not be held to dispense with the presentation of manifests, except in so far as may be provided in these rules.

The agents shall be at liberty to add to the form prescribed any columns they may require to adapt it to their own purposes.

5. Nothing in these rules shall be held to exempt the agents or masters of vessels sailing under a general pass from payment of any fees for special services, or from any restrictions as to lading or discharge of dangerous goods, imposed upon them by the rules of any port at which the pass is valid.

LADING AND CLEARANCE.

6. Vessels sailing under a general pass may be entered outwards, and shipping bills granted in anticipation of arrival.

7. No goods except transhipment goods and passengers' baggage shall be received on board without a shipping bill. All shipping bills shall be in English; and at ports where there are no other facilities for their preparation in that

language, the agents of the vessel shall be bound to provide for this requirement; shipping bills shall be in the annexed form C. For free goods they shall be prepared in duplicate printed in black and blue. For dutiable goods they shall be in triplicate, printed in black, blue and red, with the word DUTIABLE printed across in large type in red ink.

8. Free cargo may be shipped at any time, day or night, except on Sundays or holidays, without special permission or supervision: Provided that no goods shall be shipped at night without supervision, except such as have been water-borne for shipment during ordinary working hours.

9. Dutiable goods shall not be shipped except under customs supervision. The original shipping bill shall be filed at the Custom House, and the duplicate shall accompany the goods on board. The triplicate shall be retained by the officer supervising the shipment either at the wharf or on board, who after endorsing upon it the particulars of the goods actually received on board, shall return it to the Custom House for use in checking the vessel's export general manifest, as provided below, rule 13.

10. The agents shall cause similar endorsements to be made upon the duplicate shipping bills both for free and for dutiable goods. Those for dutiable goods shall accompany the vessel; those for free goods shall be retained by the agents for presentation with the export manifest.

11. Port clearance must be applied for during office hours unless otherwise directed by the chief customs officer, and at least four hours before the departure of the vessel, and must be sent on board before she actually leaves the port.

12. The export manifest shall be in the same form as is prescribed for the cargo book by rule 4. It must be put in by the agents within five clear working days from the date of port clearance, and must be accompanied by a duplicate prepared in separate parts—one for each port for which goods have been shipped, and by the duplicate shipping bills for free goods endorsed with particulars of actual shipments as required by rule 10.

13. After the original and duplicate have been compared and checked with the triplicate shipping bills for dutiable goods, and the duplicate shipping bills for free goods, one copy of the different parts of the manifest shall be sent by post, together with the corresponding duplicate or triplicate shipping bills, as the case may be, to the customs collector at the ports to which they respectively relate, and the original export manifests shall be retained for use in conjunction with the original shipping bills in recording exports statistics.

ENTRY AND DISCHARGE.

14. Within 24 hours after arrival in any customs port, terminal or intermediate, a duly authenticated extract from the cargo book kept on board as required by rule 4, showing all cargo, free or dutiable, to be discharged, whether for landing or transshipment at that port, shall be presented at the Custom House, together with the duplicate shipping bills referred to in rule 9 for all dutiable cargo comprised in the extract which may have been shipped at customs ports.

NOTE.—The form of the extract may be modified by the substitution of columns for record of presentation of bill of entry and final clearance of dutiable goods, for column 7 and onward in the form of cargo book.

15. At ports where the cargo is to be discharged direct on to a wharf, a duplicate of the extract from the cargo book shall be furnished for use in checking the cargo as it is landed. When the cargo has to be discharged into boats, the duplicate copy may be dispensed with, but a boat-note showing clearly all particulars necessary to the identification of the packages, and signed by a responsible officer of the ship, shall accompany each boat-load ashore:

Provided that at ports of call where the extract from the cargo book to be put in under rule 14, or a list of the cargo is handed to the customs officer on board, or accompanies the goods ashore, no boat-notes or duplicate extract from the cargo book need be insisted upon.

16. Discharge may be commenced as soon as the vessel drops anchor, when free cargo may be landed at any time, day or night, without special permission or supervision, but no cargo from any foreign port, and no cargo from

any customs port which was transhipped from a foreign port, shall be discharged except under the written authority of the proper officer of customs.

17. These bills of entry shall be in the usual form for goods imported by foreign-going vessels, and shall be granted upon the extract from the cargo book filed at the Custom House as required by rule 14, after check, if the goods are said to have come from a customs port, with the shipping bills filed with the extract.

NOTE.—See note to rule 14.

18. The agents of the vessel shall be bound to account, on being called upon to do so, for all discrepancies both as to free and as to dutiable cargo, and to make all amendments necessary to secure the correctness of the documents put in by them.

19. The agents shall further be bound to undertake that, when the vessel touches at any foreign port in the course of any coasting voyage, a certificate under the signature of the chief officer of customs at such port, shall be despatched within 48 hours of her departure to the customs collector of every customs port for which she has taken in cargo at such foreign port, giving number and description of packages, numbers and marks they bear, and a general description of their contents.

They shall also be bound to furnish to the chief customs officer of any customs port from which any goods may have been shipped under bond for customs or excise duty, or under claim for drawback, for any foreign port, a certificate from the chief customs officer of the said foreign port showing particulars of discharge of such goods.

TRANSHIPMENT.

20. Goods for transhipment shall be dealt with as provided in the rules laid down by notification of the Government of Bengal, dated the 26th November 1883, and the notice of the Collector of Customs, Calcutta, dated the 27th June 1882.

STORES.

21. No stores shall be landed, transhipped, unladen, shipped, or waterborne for shipment without the written authority of the proper officer of customs.

PASSENGERS' BAGGAGE.

22. Passengers' baggage may be shipped and discharged at any time without supervision or restriction except as regards baggage shipped at foreign ports. It will be the duty of the master to enter all such baggage in his cargo book and extracts therefrom to be presented under rule 14, and to see that no such baggage is landed out of hours at any customs port unless it has been passed by a customs officer on board.

By order of the Board of Revenue, L.P.,

Offg. Secretary.

BOARD OF REVENUE, L. P., Calcutta, the 24th August 1888.

No. 1127 B.

NOTIFICATION.

Dated Calcutta, the 30th August 1888.

THE following rules have been prescribed by the Board of Revenue, Lower Provinces, under section 164 of the Sea Customs Act, VIII of 1878, to carry out the provisions of Chapter 15 of the Act in their application to vessels sailing under a General Pass, and are published for general information in accordance with the provisions of section 204 of the Act, in supersession of the Notification contained in pages 688—694, Part I, of the *Calcutta Gazette* of the 9th August 1882:—

Customs.
P. M. Halliday, Esq.

GENERAL.

1. In these rules the word “agent” shall include masters and owners.

The words “customs port” shall include any foreign ports regarding which it has been notified, under section 13 of the Sea Customs Act VIII of 1878, that all goods imported from or exported to them shall be treated as goods imported from or exported to customs ports.

The words “foreign port” shall include all foreign ports, whether on the continent of India or not, except those regarding which a notification has been issued as above.

The words “dutiable cargo” or “dutiable goods” shall be held to mean—

- (a) All goods shipped from foreign ports for customs ports whether transhipped at any customs port or not;
- (b) All goods specified in schedules 2 and 3 of the Tariff Act XI of 1882 whether shipped from or to foreign ports or customs ports;
- (c) All goods exported under claim for drawback or under bond for duty of customs or excise;
- (d) All goods the importation or exportation of which is prohibited or restricted under section 18 of the Customs Act, or any other law for the time being in force.

The words “free cargo” or “free goods” shall be held to mean all goods which do not fall within the above definition of dutiable.

2. A general pass in the form prescribed (Appendix A) shall be issued for each steamer under the signature of the Collector of Customs at Calcutta.

It shall be terminable on the 31st of July in each year, and shall be renewable by endorsement on application to the Collector of Customs. It shall be stated on the face of every general pass whether it is valid,

- (a) For certain specified ports only;
- (b) For all ports throughout certain presidencies; or
- (c) For all customs ports throughout India.

The pass shall remain in charge of the commander or other responsible officer of the vessel for which it is granted. It shall be kept posted up in a conspicuous place on board, and shall be shown to any customs officer on demand.

A copy of these rules shall be furnished with each Pass for the use of the ship to which it relates.

The agents or owners may choose at their option at which presidency the pass shall be taken out.

3. By applying for a general pass the agents of a vessel bind themselves, should a pass be granted, to be responsible:—

That no goods shall be carried by her in contravention of any law for the time being in force;

That all provisions of the Customs Act and of these and all other rules legally promulgated in accordance with the said Act, by the authorities of this or any other presidency in which the pass is in force, shall be duly observed;

That all port and light dues shall be paid and all duties short levied or refunds or drawbacks erroneously disbursed in consequence of errors or omissions in the cargo books, manifests, or other documents they are required to keep or put in, shall be made good on demand; and further,

That they shall deposit with the Collector of Customs a sum in cash or Government promissory notes, amounting to Rs. 500 for each vessel, but not more than Rs. 3,000 for any one company or line, and shall give him a general authority to recover from the said deposit all sums adjudged to be due from them whether as dues, duties, recoveries, fees or penalties, in respect of the vessel for which the pass is granted, or of any other vessel or vessels belonging to the same owners and also sailing under a general pass.

Nothing in this condition, however, shall be held to prejudice their right to appeal as provided by section 188 of the Sea Customs Act, VIII of 1878, in any case in which they may consider themselves aggrieved by the Collector's decision.

4. A cargo book in the form B annexed should be kept on board every steamer sailing under a general pass. The said cargo book shall be kept in accordance with the requirements of section 165 of the Sea Customs Act, VIII of 1878, and shall further show separately the dutiable and free cargo received at each port for each port, whether customs or foreign. Cargo received for transshipment shall be shown as for the port at which transshipment is to take place, but the port of ultimate destination shall also be given.

The keeping of the said cargo book shall not be held to dispense with the presentation of manifests, except in so far as may be provided in these rules.

The agents shall be at liberty to add to the form prescribed any columns they may require to adapt it to their own purposes.

5. Nothing in these rules shall be held to exempt the agents or masters of vessels sailing under a general pass from payment of any fees for special services, or from any restrictions as to lading or discharge of dangerous goods, imposed upon them by the rules of any port at which the pass is valid.

LADING AND CLEARANCE.

6. Vessels sailing under a general pass may be entered outwards, and shipping bills granted in anticipation of arrival.

7. No goods except transshipment goods and passengers' baggage shall be received on board without a shipping bill. All shipping bills shall be in English; and at ports where there are no other facilities for their preparation in that

language, the agents of the vessel shall be bound to provide for this requirement; shipping bills shall be in the annexed form C. For free goods they shall be prepared in duplicate printed in black and blue. For dutiable goods they shall be in triplicate, printed in black, blue and red, with the word DUTIABLE printed across in large type in red ink.

8. Free cargo may be shipped at any time, day or night, except on Sundays or holidays, without special permission or supervision: Provided that no goods shall be shipped at night without supervision, except such as have been water-borne for shipment during ordinary working hours.

9. Dutiable goods shall not be shipped except under customs supervision. The original shipping bill shall be filed at the Custom House, and the duplicate shall accompany the goods on board. The triplicate shall be retained by the officer supervising the shipment either at the wharf or on board, who after endorsing upon it the particulars of the goods actually received on board, shall return it to the Custom House for use in checking the vessel's export general manifest, as provided below, rule 13.

10. The agents shall cause similar endorsements to be made upon the duplicate shipping bills both for free and for dutiable goods. Those for dutiable goods shall accompany the vessel; those for free goods shall be retained by the agents for presentation with the export manifest.

11. Port clearance must be applied for during office hours unless otherwise directed by the chief customs officer, and at least four hours before the departure of the vessel, and must be sent on board before she actually leaves the port.

12. The export manifest shall be in the same form as is prescribed for the cargo book by rule 4. It must be put in by the agents within five clear working days from the date of port clearance, and must be accompanied by a duplicate prepared in separate parts—one for each port for which goods have been shipped, and by the duplicate shipping bills for free goods endorsed with particulars of actual shipments as required by rule 10.

13. After the original and duplicate have been compared and checked with the triplicate shipping bills for dutiable goods, and the duplicate shipping bills for free goods, one copy of the different parts of the manifest shall be sent by post, together with the corresponding duplicate or triplicate shipping bills, as the case may be, to the customs collector at the ports to which they respectively relate, and the original export manifests shall be retained for use in conjunction with the original shipping bills in recording exports statistics.

ENTRY AND DISCHARGE.

14. Within 24 hours after arrival in any customs port, terminal or intermediate, a duly authenticated extract from the cargo book kept on board as required by rule 4, showing all cargo, free or dutiable, to be discharged, whether for landing or transshipment at that port, shall be presented at the Custom House, together with the duplicate shipping bills referred to in rule 9 for all dutiable cargo comprised in the extract which may have been shipped at customs ports.

NOTE.—The form of the extract may be modified by the substitution of columns for record of presentation of bill of entry and final clearance of dutiable goods, for column 7 and onward in the form of cargo book.

15. At ports where the cargo is to be discharged direct on to a wharf, a duplicate of the extract from the cargo book shall be furnished for use in checking the cargo as it is landed. When the cargo has to be discharged into boats, the duplicate copy may be dispensed with, but a boat-note showing clearly all particulars necessary to the identification of the packages, and signed by a responsible officer of the ship, shall accompany each boat-load ashore:

Provided that at ports of call where the extract from the cargo book to be put in under rule 14, or a list of the cargo is handed to the customs officer on board, or accompanies the goods ashore, no boat-notes or duplicate extract from the cargo book need be insisted upon.

16. Discharge may be commenced as soon as the vessel drops anchor, when free cargo may be landed at any time, day or night, without special permission or supervision, but no cargo from any foreign port, and no cargo from

any customs port which was transhipped from a foreign port, shall be discharged except under the written authority of the proper officer of customs.

17. These bills of entry shall be in the usual form for goods imported by foreign-going vessels, and shall be granted upon the extract from the cargo book filed at the Custom House as required by rule 14, after check, if the goods are said to have come from a customs port, with the shipping bills filed with the extract.

NOTE.—See note to rule 14.

18. The agents of the vessel shall be bound to account, on being called upon to do so, for all discrepancies both as to free and as to dutiable cargo, and to make all amendments necessary to secure the correctness of the documents put in by them.

19. The agents shall further be bound to undertake that, when the vessel touches at any foreign port in the course of any coasting voyage, a certificate under the signature of the chief officer of customs at such port, shall be despatched within 48 hours of her departure to the customs collector of every customs port for which she has taken in cargo at such foreign port, giving number and description of packages, numbers and marks they bear, and a general description of their contents.

They shall also be bound to furnish to the chief customs officer of any customs port from which any goods may have been shipped under bond for customs or excise duty, or under claim for drawback, for any foreign port, a certificate from the chief customs officer of the said foreign port showing particulars of discharge of such goods.

TRANSHIPMENT.

20. Goods for transhipment shall be dealt with as provided in the rules laid down by notification of the Government of Bengal, dated the 26th November 1883, and the notice of the Collector of Customs, Calcutta, dated the 27th June 1882.

STORES.

21. No stores shall be landed, transhipped, unladen, shipped, or waterborne for shipment without the written authority of the proper officer of customs.

PASSENGERS' BAGGAGE.

22. Passengers' baggage may be shipped and discharged at any time without supervision or restriction except as regards baggage shipped at foreign ports. It will be the duty of the master to enter all such baggage in his cargo book and extracts therefrom to be presented under rule 14, and to see that no such baggage is landed out of hours at any customs port unless it has been passed by a customs officer on board.

By order of the Board of Revenue, L.P.,

A subsequent telegram intimates that the outer buoy has been replaced in position, and that anchoring mark for steamers now is Reddie Head Spit, inner buoy, with cross beacon on Reddie Head. This alteration has become necessary, as the whole island from Point Reddie to the ballast ground is at present under water at high tide.

AFRICA—EAST.

RED SEA—EASTERN SHORE.

Kamarán Bay—Reef off Southern Entrance.

THE British Admiralty has given notice (Notice to Mariners No. 318 of 1888) that information has been received through the Board of Trade that on the 1st August 1888 the British steam vessel *Bussorah*, when entering Kamarán Bay by the South Channel, struck on the southern side of the entrance:—

The bearings given for the position of the vessel when aground in 3 fathoms water, are as follows:—

Northern extreme of Ras-el Bayádh—N. $61\frac{3}{4}^{\circ}$ E.

Southern extreme of Ras-el Bayádh—S. $8\frac{3}{4}^{\circ}$ W.

South-west extreme of Kamarán Island—N. $47\frac{1}{4}^{\circ}$ W.

As the southern entrance to Kamarán Bay has previously been reported to be narrower than shown on the plan, it appears probable that the shore reef outside Ras-el Bayádh is wider than given on the chart, and Mariners should use caution in entering.

NOTE.—In the caution, printed on chart No. 14, the word "not" is omitted from the second paragraph, which should run as follows:—When there is any wind the reefs are not easily seen.

(The bearings are magnetic. Variation $3\frac{3}{4}^{\circ}$ Westerly in 1888).

(3). In Calcutta, Bombay, and Rangoon such water shall be obtained from the municipal pipes, and in Chittagong from the port water-works.

B.—Medical stores and other appliances and fittings for maintaining health, cleanliness and decency.

II.—(1). Every such ship shall have on board—

(a) if she carry a surgeon, a supply of medicines and surgical appliances as set forth in Schedule A hereunto annexed;

(b) if she do not carry a surgeon, a supply of medicines and appliances as set forth in Schedule B hereunto annexed, together with written or printed instructions for their use in a language which the commander or some other officer of the ship can read; provided that, if the ship is about to commence a "short voyage" only as defined by section 5 of the Act, the ship need only have on board the medicines and surgical appliances mentioned in Schedule C hereunto annexed.

(2). The medicines and surgical appliances above specified shall be supplied for the use of the passengers whenever circumstances so require; and if the medical officer, or, where there is none, the master of the ship, omits, when circumstances so require, to supply the same, he shall be punished with fine which may extend to two hundred rupees.

III.—(1). Every such ship carrying more than one hundred passengers as defined in the Act shall have the following hospital accommodation, or the following materials for the construction of hospital accommodation, for the passengers:

A.—In the case of ships making long voyages.

(a) There shall be a permanent hospital set apart on the upper deck and fitted up either in the poop or deck-house. This hospital shall contain not more than six bunks, and shall have a superficial deck area of at least 144 feet and not less than 864 cubic feet of air space. It shall be lighted and ventilated to the satisfaction of the surveying officers, and shall be provided with a raised floor or platform at least four inches off the deck. Every permanent hospital must be made as secure as any other deck-house, and the roof must be well caulked and covered with painted canvas. In all such permanent hospitals, iron fittings are preferable to wood. No case of small-pox, cholera, yellow fever, or plague shall on any account be treated in the permanent hospital.

(b) To provide for the treatment of such cases of sickness as it may be considered desirable to separate (such as small-pox, cholera, yellow fever or plague), and for any general outbreak of sickness when the permanent hospital accommodation becomes insufficient, each ship shall carry the materials for the construction of a temporary hospital upon its upper deck. The part of the upper deck upon which such hospital shall be erected shall be pointed out and measured off by the surveying officers. The framework of the hospital may be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos. The roof must be tented, and both that and the side walls must be made of stout canvas and be perfectly water-tight, due provision being at the same time made for ventilation. The superficial area of the floor shall be not less than 144 feet, and such floor shall be raised at least four inches from the deck. Sheet, iron is preferable as the material of the floor.

B.—In the case of ships making short voyages.

(c) Each ship shall carry the materials for the erection of a temporary hospital, as described in clause (b) above, for the treatment of cases of the kind referred to in the said clause, provided that the superficial area reserved for such hospital need not be more than 72 feet. This space must always be deducted from the area measured for passengers on board of such ships.

(2). The permanent hospital, in the case of ships provided with the same, shall be available at all times for the use of sick passengers (other than those suffering from small-pox, cholera, yellow fever, or plague), and the temporary hospital shall always be erected at once and made available for the use of sick passengers whenever the circumstances as described above so require.

(3). If the master of any ship omits either to keep any hospital available for the use of sick passengers, or to erect a temporary hospital as required by this rule, he shall be punished with fine which may extend to two hundred rupees, and with a further fine of twenty rupees for every day after the first during which the omission continues.

IV.—(1) Every such ship shall be fitted with not less than two privies sufficiently screened from public view and readily accessible and available at all times for the use of the passengers, and with one more such privy for every 100 passengers, or part of that number, carried in excess of 100; but no privies shall be allowed in the between-decks.

(2). A proportion of such privies, in any case not less than one, if there be any females among the passengers, shall be set apart for the exclusive use of females, such proportion corresponding, as nearly as may be, to the proportion of female to male passengers.

V.—Every such ship shall be provided with, and have available for the use of the passengers, not less than two places for washing sufficiently screened from public view, whereof a full proportion, as described in Rule IV, shall be set apart exclusively for females. A sufficient number of hand-pumps shall also be provided for supplying sea-water for purposes of ablution.

VI.—On every such ship cattle shall be kept securely penned in, so as not to inconvenience the passengers.

VII.—(1). Every such ship shall be provided with not less than two cabooses or cooking ranges on deck, properly housed and covered, to which passengers shall have ready access at certain times in each day. The ranges shall be made of substantial plate-iron lined inside with bricks, and raised at least four inches from the deck, with an outlet or chimney at the top for the escape of smoke. Each range shall contain at least five cooking places, and an additional range shall be provided for every two hundred passengers carried in excess of one hundred. Cooking on board in the passengers' own stoves is prohibited, and any passenger so cooking or attempting to cook shall be punished with fine which may extend to one hundred rupees.

(2). The crew of the ship shall not be allowed to use the cooking ranges set apart for passengers during the period passengers are on board, but shall be provided with a separate cooking range.

(3). In the case of ships engaged in the coasting trade and carrying passengers on short voyages from port to port, who do not ordinarily cook food on board, the number of cooking ranges may be reduced to such number, not being less than two, as may seem adequate to the requirements of the passengers.

AFRICA—EAST.

RED SEA—EASTERN SHORE.

Kamarán Bay—Reef off Southern Entrance.

THE British Admiralty has given notice (Notice to Mariners No. 318 of 1888)* that information has been received through the Board of Trade that on the 1st August 1888 the British steam vessel *Bussorah*, when entering Kamarán Bay by the South Channel, struck on the southern side of the entrance:—

The bearings given for the position of the vessel when aground in 3 fathoms water, are as follows:—

Northern extreme of Ras-el Bayádh—N. 61½° E.
Southern extreme of Ras-el Bayádh—S. 8½° W.
South-west extreme of Kamarán Island—N. 47½° W.

As the southern entrance to Kamarán Bay has previously been reported to be narrower than shown on the plan, it appears probable that the shore reef outside Ras-el Bayádh is wider than given on the chart, and Mariners should use caution in entering.

NOTE.—In the caution printed on chart No. 14, the word "not" is omitted from the second paragraph, which should run as follows:—When there is any wind the reefs are not easily seen.

(The bearings are magnetic. Variation 3¼° Westerly in 1888).

[Note.—In the case of ships sailing from ports in the Presidency of Madras, the scale of tamarind, condiments, and salt shall be double that specified above, and one ounce of tamarind shall be supplied in the case of passengers bound for ports within 48 hours' sail.]

(2). In the case of steam-ships carrying an apparatus for distilling fresh from salt water a supply equal to five-sevenths of a gallon per head per diem shall suffice.

(3). In Calcutta, Bombay, and Rangoon such water shall be obtained from the municipal pipes, and in Chittagong from the port water-works.

B.—Medical stores and other appliances and fittings for maintaining health, cleanliness and decency.

II.—(1). Every such ship shall have on board—

- (a) if she carry a surgeon, a supply of medicines and surgical appliances as set forth in Schedule A hereunto annexed;
- (b) if she do not carry a surgeon, a supply of medicines and appliances as set forth in Schedule B hereunto annexed, together with written or printed instructions for their use in a language which the commander or some other officer of the ship can read; provided that, if the ship is about to commence a "short voyage" only as defined by section 5 of the Act, the ship need only have on board the medicines and surgical appliances mentioned in Schedule C hereunto annexed.

(2). The medicines and surgical appliances above specified shall be supplied for the use of the passengers whenever circumstances so require; and if the medical officer, or, where there is none, the master of the ship, omits, when circumstances so require, to supply the same, he shall be punished with fine which may extend to two hundred rupees.

III.—(1). Every such ship carrying more than one hundred passengers as defined in the Act shall have the following hospital accommodation, or the following materials for the construction of hospital accommodation, for the passengers:

A.—In the case of ships making long voyages.

- (a) There shall be a permanent hospital set apart on the upper deck and fitted up either in the poop or deck-house. This hospital shall contain not more than six bunks, and shall have a superficial deck area of at least 144 feet and not less than 864 cubic feet of air space. It shall be lighted and ventilated to the satisfaction of the surveying officers, and shall be provided with a raised floor or platform at least four inches off the deck. Every permanent hospital must be made as secure as any other deck-house, and the roof must be well caulked and covered with painted canvas. In all such permanent hospitals, iron fittings are preferable to wood. No case of small-pox, cholera, yellow fever, or plague shall on any account be treated in the permanent hospital.
- (b) To provide for the treatment of such cases of sickness as it may be considered desirable to separate (such as small-pox, cholera, yellow fever or plague), and for any general outbreak of sickness when the permanent hospital accommodation becomes insufficient, each ship shall carry the materials for the construction of a temporary hospital upon its upper deck. The part of the upper deck upon which such hospital shall be erected shall be pointed out and measured off by the surveying officers. The framework of the hospital may be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos. The roof must be tented, and both that and the side walls must be made of stout canvas and be perfectly water-tight, due provision being at the same time made for ventilation. The superficial area of the floor shall be not less than 144 feet, and such floor shall be raised at least four inches from the deck. Sheet, iron is preferable as the material of the floor.

B.—In the case of ships making short voyages.

- (c) Each ship shall carry the materials for the erection of a temporary hospital, as described in clause (b) above, for the treatment of cases of the kind referred to in the said clause, provided that the superficial area reserved for such hospital need not be more than 72 feet. This space must always be deducted from the area measured for passengers on board of such ships.

(2). The permanent hospital, in the case of ships provided with the same, shall be available at all times for the use of sick passengers (other than those suffering from small-pox, cholera, yellow fever, or plague), and the temporary hospital shall always be erected at once and made available for the use of sick passengers whenever the circumstances as described above so require.

(3). If the master of any ship omits either to keep any hospital available for the use of sick passengers, or to erect a temporary hospital as required by this rule, he shall be punished with fine which may extend to two hundred rupees, and with a further fine of twenty rupees for every day after the first during which the omission continues.

IV.—(1) Every such ship shall be fitted with not less than two privies sufficiently screened from public view and readily accessible and available at all times for the use of the passengers, and with one more such privy for every 100 passengers, or part of that number, carried in excess of 100; but no privies shall be allowed in the between-decks.

(2). A proportion of such privies, in any case not less than one, if there be any females among the passengers, shall be set apart for the exclusive use of females, such proportion corresponding, as nearly as may be, to the proportion of female to male passengers.

V.—Every such ship shall be provided with, and have available for the use of the passengers, not less than two places for washing sufficiently screened from public view, whereof a full proportion, as described in Rule IV, shall be set apart exclusively for females. A sufficient number of hand-pumps shall also be provided for supplying sea-water for purposes of ablution.

VI.—On every such ship cattle shall be kept securely penned in, so as not to inconvenience the passengers.

VII.—(1). Every such ship shall be provided with not less than two cabooses or cooking ranges on deck, properly housed and covered, to which passengers shall have ready access at certain times in each day. The ranges shall be made of substantial plate-iron lined inside with bricks, and raised at least four inches from the deck, with an outlet or chimney at the top for the escape of smoke. Each range shall contain at least five cooking places, and an additional range shall be provided for every two hundred passengers carried in excess of one hundred. Cooking on board in the passengers' own stoves is prohibited, and any passenger so cooking or attempting to cook shall be punished with fine which may extend to one hundred rupees.

(2). The crew of the ship shall not be allowed to use the cooking ranges set apart for passengers during the period passengers are on board, but shall be provided with a separate cooking range.

(3). In the case of ships engaged in the coasting trade and carrying passengers on short voyages from port to port, who do not ordinarily cook food on board, the number of cooking ranges may be reduced to such number, not being less than two, as may seem adequate to the requirements of the passengers.

VIII.—The master of any ship omitting to keep any privy, washing place, or cooking range available for the use of the passengers, or any cattle securely penned in, or allowing the crew of the ship to use any cooking range set apart for passengers in breach of the foregoing rules, shall be punished with fine which may extend to two hundred rupees, and when the breach is a continuing one with a further fine of twenty rupees for every day after the first during which the breach continues.

C.—Boats, anchors and cables.

IX.—Every such ship shall be provided with boats according to the scale laid down in the annexed schedule, all such boats being fully fitted with all usual appliances.

In ships of 600 tons and upwards two of the boats should be life-boats.

No greater number of boats need be taken than are sufficient to carry all the crew and passengers on board.

The cubic contents of the boats in the foregoing table are ascertained by multiplying their outside length, their outside width and their inside depth together, and then the product by 96.

D.—Instruments for purposes of navigation.

XI.—Every such ship shall be provided with—

- (b) charts suitable for the voyage she is about to undertake;
- (c) not less than one chronometer and not less than two sextants or quadrants and barometers, unless her size be under 240 tons, and she be bound on a short voyage, in which case it shall suffice if she be provided with a sextant or a quadrant.

E.—Apparatus for extinguishing and precautions against fire.

XII.—Every such ship shall be provided—

- (a) if she be a steam-ship, with hose sufficient to reach from her engines to her stem and taffrail;

- (c) in the case both of steam-ships and sailing ships, with fire-buckets in the proportion of three for every 100 tons up to 600, and two for every 100 tons above 600, provided that 50 in all shall suffice.

XIII.—If fire annihilators or fire-engines are carried, they shall be placed by the master under the special charge of one of the principal officers of the ship and the ship's carpenter, who should be held responsible that, with the buckets and other fire apparatus, they are kept in a state fit for immediate use. The engine shall be worked not less than once a week, and shall be kept in proper order. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire. The master of any such ship failing to comply with the requirements of this rule shall be punished with fine which may extend to two hundred rupees.

XIV.—The cargo of every such ship shall, before leaving port, be properly stowed away, and the decks cleared of any loose straw, hay, or other inflammable material. If any such ship leaves port without having the cargo so stowed, and the decks so cleared, the master shall be punished with fine which may extend to two hundred rupees.

XV.—Immediately before leaving port, the passengers of every such ship shall be called on to deliver up whatever lucifer matches, gunpowder or other inflammable articles they may have about them. Any passenger omitting or refusing to deliver up any such articles when called upon to do so shall be punished with fine which may extend to one hundred rupees.

XVI.—No naked lights shall on any account be used in the hold or store-rooms or in the between-decks, except under trustworthy superintendence. No person shall read in bed with a naked light. XIX.—In the case of every such ship about to proceed on a long voyage, [the whole of the open space on the upper deck of the ship shall be left unencumbered, so as to be available for the use of passengers, or at least so much of that space shall be left unencumbered as to allow not less than six superficial feet thereof for each passenger proceeding on the voyage.

XX.—(1). Certificate B, provided for in section 11 of the Act, shall not be granted until the officer appointed to grant the same is satisfied that, in addition to the food, fuel, and pure water required by clause (c) of that section, the medical stores and other appliances, the fittings for maintaining health, cleanliness, and decency, the boats, anchors, and cables, the instruments for purposes of navigation, the apparatus for extinguishing fire, the appliances for saving life and making signals of distress, the awning for the portion of the deck used by the passengers, and the upper-deck space for each passenger required by the foregoing rules have also been provided on board.

GOVERNMENT OF BENGAL, PUBLIC WORKS DEPARTMENT—(MARINE).

NOTICE TO MARINERS.—(No. 65).

AFRICA—EAST.

RED SEA—EASTERN SHORE.

Kamarán Bay—Reef off Southern Entrance.

THE British Admiralty has given notice (Notice to Mariners No. 318 of 1888) that information has been received through the Board of Trade that on the 1st August 1888 the British steam vessel *Bussorah*, when entering Kamarán Bay by the South Channel, struck on the southern side of the entrance:—

The bearings given for the position of the vessel when aground in 3 fathoms water, are as follows:—

Northern extreme of Ras-el Bayádh—N. $61\frac{3}{4}^{\circ}$ E.Southern extreme of Ras-el Bayádh—S. $8\frac{3}{4}^{\circ}$ W.South-west extreme of Kamarán Island—N. $47\frac{1}{4}^{\circ}$ W.

As the southern entrance to Kamarán Bay has previously been reported to be narrower than shown on the plan, it appears probable that the shore reef outside Ras-el Bayádh is wider than given on the chart, and Mariners should use caution in entering.

NOTE.—In the caution printed on chart No. 14, the word "not" is omitted from the second paragraph, which should run as follows:—When there is any wind the reefs are not easily seen.

(The bearings are magnetic. Variation $3\frac{1}{4}^{\circ}$ Westerly in 1888).

By direction of the Government of Bengal,

EATON W. PETLEY,
Offg. Port Officer of Calcutta.

(2). In the case of steam-ships carrying an apparatus for distilling fresh from salt water a supply equal to five-sevenths of a gallon per head per diem shall suffice.

(3). In Calcutta, Bombay, and Rangoon such water shall be obtained from the municipal pipes, and in Chittagong from the port water-works.

B.—Medical stores and other appliances and fittings for maintaining health, cleanliness and decency.

II.—(1). Every such ship shall have on board—

(a) if she carry a surgeon, a supply of medicines and surgical appliances as set forth in Schedule A hereunto annexed;

(b) if she do not carry a surgeon, a supply of medicines and appliances as set forth in Schedule B hereunto annexed, together with written or printed instructions for their use in a language which the commander or some other officer of the ship can read; provided that, if the ship is about to commence a "short voyage" only as defined by section 5 of the Act, the ship need only have on board the medicines and surgical appliances mentioned in Schedule C hereunto annexed.

(2). The medicines and surgical appliances above specified shall be supplied for the use of the passengers whenever circumstances so require; and if the medical officer, or, where there is none, the master of the ship, omits, when circumstances so require, to supply the same, he shall be punished with fine which may extend to two hundred rupees.

III.—(1). Every such ship carrying more than one hundred passengers as defined in the Act shall have the following hospital accommodation, or the following materials for the construction of hospital accommodation, for the passengers:

A.—In the case of ships making long voyages.

(a) There shall be a permanent hospital set apart on the upper deck and fitted up either in the poop or deck-house. This hospital shall contain not more than six bunks, and shall have a superficial deck area of at least 144 feet and not less than 864 cubic feet of air space. It shall be lighted and ventilated to the satisfaction of the surveying officers, and shall be provided with a raised floor or platform at least four inches off the deck. Every permanent hospital must be made as secure as any other deck-house, and the roof must be well caulked and covered with painted canvas. In all such permanent hospitals, iron fittings are preferable to wood. No case of small-pox, cholera, yellow fever, or plague shall on any account be treated in the permanent hospital.

(b) To provide for the treatment of such cases of sickness as it may be considered desirable to separate (such as small-pox, cholera, yellow fever or plague), and for any general outbreak of sickness when the permanent hospital accommodation becomes insufficient, each ship shall carry the materials for the construction of a temporary hospital upon its upper deck. The part of the upper deck upon which such hospital shall be erected shall be pointed out and measured off by the surveying officers. The framework of the hospital may be either of iron (in pieces that can be easily fitted together) or of wooden spars or bamboos. The roof must be tented, and both that and the side walls must be made of stout canvas and be perfectly water-tight, due provision being at the same time made for ventilation. The superficial area of the floor shall be not less than 144 feet, and such floor shall be raised at least four inches from the deck. Sheet, iron is preferable as the material of the floor.

B.—In the case of ships making short voyages.

(c) Each ship shall carry the materials for the erection of a temporary hospital, as described in clause (b) above, for the treatment of cases of the kind referred to in the said clause, provided that the superficial area reserved for such hospital need not be more than 72 feet. This space must always be deducted from the area measured for passengers on board of such ships.

(2). The permanent hospital, in the case of ships provided with the same, shall be available at all times for the use of sick passengers (other than those suffering from small-pox, cholera, yellow fever, or plague), and the temporary hospital shall always be erected at once and made available for the use of sick passengers whenever the circumstances as described above so require.

(3). If the master of any ship omits either to keep any hospital available for the use of sick passengers, or to erect a temporary hospital as required by this rule, he shall be punished with fine which may extend to two hundred rupees, and with a further fine of twenty rupees for every day after the first during which the omission continues.

IV.—(1) Every such ship shall be fitted with not less than two privies sufficiently screened from public view and readily accessible and available at all times for the use of the passengers, and with one more such privy for every 100 passengers, or part of that number, carried in excess of 100; but no privies shall be allowed in the between-decks.

(2). A proportion of such privies, in any case not less than one, if there be any females among the passengers, shall be set apart for the exclusive use of females, such proportion corresponding, as nearly as may be, to the proportion of female to male passengers.

V.—Every such ship shall be provided with, and have available for the use of the passengers, not less than two, places for washing sufficiently screened from public view, whereof a full proportion, as described in Rule IV, shall be set apart exclusively for females. A sufficient number of hand-pumps shall also be provided for supplying sea-water for purposes of ablution.

VI.—On every such ship cattle shall be kept securely penned in, so as not to inconvenience the passengers.

VII.—(1). Every such ship shall be provided with not less than two cabooses or cooking ranges on deck, properly housed and covered, to which passengers shall have ready access at certain times in each day. The ranges shall be made of substantial plate-iron lined inside with bricks, and raised at least four inches from the deck, with an outlet or chimney at the top for the escape of smoke. Each range shall contain at least five cooking places, and an additional range shall be provided for every two hundred passengers carried in excess of one hundred. Cooking on board in the passengers' own stoves is prohibited, and any passenger so cooking or attempting to cook shall be punished with fine which may extend to one hundred rupees.

(2). The crew of the ship shall not be allowed to use the cooking ranges set apart for passengers during the period passengers are on board, but shall be provided with a separate cooking range.

(3). In the case of ships engaged in the coasting trade and carrying passengers on short voyages from port to port, who do not ordinarily cook food on board, the number of cooking ranges may be reduced to such number, not being less than two, as may seem adequate to the requirements of the passengers.

VIII.—The master of any ship omitting to keep any privy, washing place, or cooking range available for the use of the passengers, or any cattle securely penned in, or allowing the crew of the ship to use any cooking range set apart for passengers in breach of the foregoing rules, shall be punished with fine which may extend to two hundred rupees, and when the breach is a continuing one with a further fine of twenty rupees for every day after the first during which the breach continues.

C.—Boats, anchors and cables.

IX.—Every such ship shall be provided with boats according to the scale laid down in the annexed schedule, all such boats being fully fitted with all usual appliances.

Schedule of boat accommodation.

In ships of 200 tons and upwards, no boat of less than 90 feet of cubical contents is to be counted in the number.

In ships of 600 tons and upwards two of the boats should be life-boats.

No greater number of boats need be taken than are sufficient to carry all the crew and passengers on board.

The cubic contents of the boats in the foregoing table are ascertained by multiplying their outside length, their outside width and their inside depth together, and then the product by 2/3.

X.—Every such ship shall be provided with not less than three anchors and cables.

D.—Instruments for purposes of navigation.

XI.—Every such ship shall be provided with—

- (a) not less than two good compasses; and, if she be an iron ship, with a record of the deviation of her compasses on every point entered in the log-book;
- (b) charts suitable for the voyage she is about to undertake;
- (c) not less than one chronometer and not less than two sextants or quadrants and barometers, unless her size be under 240 tons, and she be bound on a short voyage, in which case it shall suffice if she be provided with a sextant or a quadrant.

E.—Apparatus for extinguishing and precautions against fire.

XII.—Every such ship shall be provided—

- (a) if she be a steam-ship, with hose sufficient to reach from her engines to her stem and taffrail;
- (b) if she be a sailing ship, with one fire-engine or force-pump, with hose sufficient to reach from her stem to her taffrail; and if her tonnage exceed 800 tons, with a second such engine or force-pump, with like hose; and
- (c) in the case both of steam-ships and sailing-ships, with fire-buckets in the proportion of three for every 100 tons up to 600, and two for every 100 tons above 600, provided that 50 in all shall suffice.

XIII.—If fire annihilators or fire-engines are carried, they shall be placed by the master under the special charge of one of the principal officers of the ship and the ship's carpenter, who should be held responsible that, with the buckets and other fire apparatus, they are kept in a state fit for immediate use. The engine shall be worked not less than once a week, and shall be kept in proper order. As soon as possible after leaving port, the officers and crew shall be divided into parties and assigned to stations in case of fire. The master of any such ship failing to comply with the requirements of this rule shall be punished with fine which may extend to two hundred rupees.

XIV.—The cargo of every such ship shall, before leaving port, be properly stowed away, and the decks cleared of any loose straw, hay, or other inflammable material. If any such ship leaves port without having the cargo so stowed, and the decks so cleared, the master shall be punished with fine which may extend to two hundred rupees.

XV.—Immediately before leaving port, the passengers of every such ship shall be called on to deliver up whatever lucifer matches, gunpowder or other inflammable articles they may have about them. Any passenger omitting or refusing to deliver up any such articles when called upon to do so shall be punished with fine which may extend to one hundred rupees.

XVI.—No naked lights shall on any account be used in the hold or store-rooms or in the between-decks, except under trustworthy superintendence. No person shall read in bed with a naked light. Smoking between-decks is strictly prohibited. Spirits must never be opened in the hold, but should be hoisted on deck for the purpose. Any person committing a breach of this rule shall be punished with fine which may extend to two hundred rupees.

Appliances for saving life and making signals of distress.

XVII.—Every such ship shall be provided with an adequate supply of life-buoys, not less than four for each vessel, signals of distress, and inextinguishable lights fitted for attachment to the life-buoys.

Miscellaneous.

XVIII.—Every such ship to which clause (4) of section 18 of the Act does not apply shall be provided with a single awning of stout canvas over the whole of the portion of the deck used by the passengers.

XIX.—In the case of every such ship about to proceed on a long voyage, the whole of the open space on the upper deck of the ship shall be left unencumbered, so as to be available for the use of passengers, or at least so much of that space shall be left unencumbered as to allow not less than six superficial feet thereof for each passenger proceeding on the voyage.

XX.—(1). Certificate B, provided for in section 11 of the Act, shall not be granted until the officer appointed to grant the same is satisfied that, in addition to the food, fuel, and pure water required by clause (c) of that section, the medical stores and other appliances, the fittings for maintaining health, cleanliness, and decency, the boats, anchors, and cables, the instruments for purposes of navigation, the apparatus for extinguishing fire, the appliances for saving life and making signals of distress, the awning for the portion of the deck used by the passengers, and the upper-deck space for each passenger required by the foregoing rules have also been provided on board.

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale noted in the margin,

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M. in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday, if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal Receipts or deposit of other public securities as aforesaid shall have been delivered

in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M. if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a Promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazepore Factory for the

year 1887-88, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazepore Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale that may be desired by parties connected with the trade will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

No salt for which the full duty has not been previously paid shall be taken from any vessel save in bags and in a lighter provided with hatches, which are capable of being securely fastened down, and it shall be the duty of the Preventive Officer on board to satisfy himself that such lighter is in a serviceable condition before permitting such salt to be placed therein.

4. As soon as the bonder or his agent or servant shall notify to the Preventive Officer that he desires to proceed with any boat-load of salt, he shall obtain a boat-note, in which the name of the importing vessel and of the bonder, the quantity of salt contained therein, and the warehouse wherein it is to be deposited, shall be specified. The mouths of the bags shall be securely fastened, and the tying sealed with a stamp specially provided for this purpose, and the hatches shall be closed and sealed by, or in the presence of, the Preventive Officer. The lighter shall then be allowed to proceed in charge of a native officer or peon deputed for the purpose by the Custom House authorities, accompanied by an agent on the part of the bonder.

5. The boat shall be made fast to the bank nearest to the place where the railway wagons by which the salt is to be conveyed to Khoolna may be in waiting; otherwise at the moorings nearest to such ghat. It shall on no account be permitted by the native Custom House officer or peon on board to anchor anywhere else.

6. Notice of the arrival of such salt shall at once be given by the Custom House Officer to the Preventive Officer deputed by the Calcutta Customs authorities to superintend the storage of the salt in the railway wagons, who shall thereupon note the date and hour of arrival, bringing any unreasonable delay to the notice of the Collector of Customs, examine and compare the boat-note delivered by the Preventive Officer to the bonder, his servant or agent, and the cargo of salt, and superintend its removal to, and storage in, the wagons.

7. The bonder's agent and native Custom House officer or peon shall remain on board of the boat in charge until the seals and hatches are examined and all the cargo landed and put in wagons.

8. After the salt has been put in the railway wagons, the wagons shall be closed and sealed by, or in the presence of, the Preventive Officer, who shall endorse on the boat-note the quantity landed from the boat and placed in the wagons. The boat-note shall be made over to the railway guard to be taken to Khoolna with the salt as a protective document.

9. Immediately after the arrival of the wagons at Khoolna, notice shall be given by the bonder or his agent to the officer authorized by the Collector of the district to supervise the transit of the salt to the warehouse. This officer shall thereupon note the date and hour of arrival, bringing any unreasonable delay to the notice of the Collector, examine the seals, and if they are found intact, compare the boat-note delivered by the Preventive Officer to the railway guard, and the cargo of salt, and superintend its removal to the appointed warehouse, where it shall be stored in bulk, the bags being returned to the bonder. The door of the warehouse shall have two locks, the key of one lock (which must be a Chubb's lock) shall remain with the daroga and the key of the other with the bonder's agent.

10. The bonder will be held responsible for any departure from these rules on the part of his agent.

11. All expenses connected with the removal and storage of the salt shall be borne by the bonder, who shall also pay to the Collector of Customs, Calcutta, and to the District Collector, Khoolna, such fees as they may respectively fix for the services of the officer or peon in charge of the salt from the time of its discharge from the vessel's side to the completion of its storage in the warehouse.

12. If the officer referred to in rule 6 or in rule 9 shall have reason to believe that the salt has in any way been tampered with during its transit, he shall at once report the circumstance to the Collector of Customs, Calcutta, or to the Collector of the district, as the case may be, who shall direct the salt to be re-weighed, and such re-weighment shall be made at the expense of Government.

13. If there be found any unexplained deficiency in the salt on board the cargo-boat or in the railway wagons as compared with the quantity specified in the boat-note, the whole of the salt contained in such boat or railway wagons shall be confiscated, and the bond under which the salt is in course of being stored shall be cancelled.

14. Salt relating to different bonds shall be stored separately and distinctly. Any admixture of salt specified in different bonds shall render those bonds liable to cancellation, and the holders to immediate payment of the full duty payable thereon.

15. On salt bonded in the licensed warehouse, the duty shall be calculated on the quantity delivered on weighment from the side of the ship in which it was imported, less an allowance on account of wastage, which shall not in ordinary cases exceed 2½ per cent. on the quantity bonded.

16. In any special case the Board of Revenue, as Chief Customs authority of the Presidency, is competent to direct that an increased allowance for wastage may be allowed. Increased allowance for wastage shall be granted in accordance with the provision of section 122, Act VIII of 1878.

17. If the Collector of the district has any reason to believe that any fraud has been perpetrated by the bonder or owner of the salt, or any person in his employ, he shall refuse to make any allowance on account of wastage, and shall demand the full duty payable on the entire quantity received into bond. But not if any suspicion of fraud.

18. The weighment of salt on ship-board shall be carried on subject to such charges as may be in force, and under such subsidiary arrangements as may from time to time be made by the Collector of Customs, Calcutta, in respect of salt intended to be bonded in the Government godowns at Sulkea.
